Part 1: The Birds, the Bees, and Everything in Between

April 12th

This workshop focuses on species at risk. We will provide you with skills and resources needed to identify, report and monitor species at risk on your property!

Featuring:
Wildlife Preservation Canada
Bird Studies Canada
Ecologist, Jarmo Jalava

Part 2: Alien Invaders 101

April 26th

Do you have alien species on your property? With a focus on invasive plants, we will provide you with the knowledge to identify, report and control a few of these aliens!

This workshop will be facilitated by the Ontario Invasive Plant Council!
